1. the lighthouse, 2. the Italian war memorial I & II,
3. the unique geological phenomenon "Katavothres",
4. the waterwheel. **Don't miss any! It's worth it!**

Where is it? See the map of Lassi. Also see on the map of Lassi where is the **Cave Hermitage Saint Gerasimos in Lassi.**

Some middlemen rep try to confuse the tourists people **not to read our guide.**

Our guide does not benefit the middlemen because they **don't get any commission** that's why they try to **confuse the tourists** and say with a **fake-political smile** "**do not take one, do not read the leaflet** from the man with the green car.

Talk talk, bla bla the middleman **speaks for 30min** to the tourists and makes **propaganda and sabotage.** The greek travelagent paid a young man with a motorcycle to destroy our tourist **guide maps of Lassi and Kefalonia.**

Don't listen to the middleman

• **The sightseeings are near...** just follow the romantic scenic coastal circular Fanari road (it's straight down at Dolphin super market that ends at Argostoli). • **A very nice** tour for everyone to do to in a different ways by walking, car or bike! • **You can enjoy** the wonderful view of sea and take souvenir photos from six best sightseeings in area.

P.S. some middlemen-rep want to sell tourists excursions, rent cars, **etc. too expensive prices to get a big commission. See another way.**

There is, it's very easy
